1. Claims 1, 9, 10, 16-18, and 20-22 remain for examination.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 9, 10, 16-18, and 20-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) Claim 1, recitation related to receiving of first and second blocks of a cache line by instruction buffers is inconsistent. (line 7, "IB to receive a first block of the cache line **from the instruction cache**" may cure the defect)

(b) Claim 9, the same as (a), and it is not clear when the second block is received by TIC and when it is provided to IB with respect to the receiving of the first block by the IB. ("TIC to receive a second block of the cache line **in the same clock cycle**" and "TIC provide instruction blocks to the first and second IBs on **subsequent** adjacent clock cycles" may cure the defect)

(c) Claim 10, the same as (a), and it is not clear whether the second block of cache lines stored in TIC are used (i.e., provided to the instruction buffers and when).

(d) Claim 16, the same as (b).

(e) Claim 18, line 10, it is not clear whether the second block of the cache line is provided from the TIC to the first instruction queue (and whether the second blocks provided to the TIC are used).
